## Southington's Only Original Waste Hauler

*Since 1937 the Zommer family appreciates the opportunity to serve!*

Dear Customers,

Back in 1994 we remember a winter of extreme weather; our crews battled 18 storms, frozen diesel engines and snowy, icy streets. As we head into another Connecticut winter we pause to recognize the trash men and women who go out into the frigid cold before dawn, to make sure our customers' trash gets picked up on schedule.

Over the 80-year history of the Zommer family business, we've stood on the shoulders of many employees – some who've worked for our company for most of their lives. It's demanding, physical work, but thanks to retirement and health benefits, we continue to attract dedicated people. We met many excellent candidates at our Apple Harvest Festival booth!

During the holidays, please remember the trash collectors who visit your home each week; every note and gift they receive is so sincerely appreciated!

We look back nostalgically, we look forward with hope, and we wake up today determined to do a great job! Over three generations we earned a reputation for outstanding work and caring customer service – all delivered at your curbside at a fair price. Thank you very sincerely for choosing our family business!

*Wishing You  
Joyous  
Holidays  
& Happy  
New Year,  
The Zommer  
Family*

*Tremendous thanks to many kind people who support the Zommer Memorial Golf Tournament, especially Darryl DeSorbo and Bill Edgerly. In two years we've donated \$22,000 to ALS research.*

## Recycling Leadership

It's a triple-win when we recycle trash instead of burning it! Over the past 12 months, WMTC recycled hundreds of tons of trash on behalf of our Southington customers! If you're willing, here are ways you can ramp up your recycling rate more!

- 1) Make more room in your cart, flattening plastics and metals.
- 2) Call us, we'll deliver a bigger cart (96-gallon!) – free of charge!
- 3) Appoint a “recycling czar” in the family, as a cheerleader and enforcer!

♥ WMTC customers recycle every other week because we know it's better business – and better for the environment. It seems most people agree! When we announced in 2015 that we would accommodate customers who request weekly recycling, only a handful called to switch.

ENCLOSED WITH YOUR BILL, our complimentary Recycling Calendar to help track your week all year long!
